What does Issue 8 mean?

The Keyguard XL is the world's **first** and only key safe to gain LPS1175: Issue 8.

Secure as a domestic front door ✓

Tested on outdoor walls ✓

Newest test issue (Issue 8) ✓

The only key safe to achieve this level ✓

Attack tested for 3 minutes ✓

Certified for fixing to rendered walls ✓

Tested against the latest category A tools ✓

Independent attack-testing doesn't lie, the Keyguard XL is setting the **NEW STANDARD** for key safes!

Some Things **Haven't** Changed

Secured by Design

Police Preferred Specification

The Keyguard XL key safe holds Secured by Design (SBD) **Police Preferred Specification**.

This accreditation covers both External & Internal use.

What do SBD say about the Keyguard XL?

It is a great pleasure to work alongside Solon Security who I have known for so many years. It is always exciting when a new product comes out and the Burton Keyguard XL Key Safe is one of those products. It has reached LPS 1175: Issue 8 Security Rating A3, the first of its kind to achieve this standard and will be another excellent product aiming to reduce crime.

The XL has been accredited by Secured by Design (SBD), the national police crime prevention initiative, for being sufficiently robust to resist physical attack by casual or opportunist burglars. Being listed on SBD's website ensures products have met our Police Preferred Specification security standards. SBD is the only way for companies to obtain police accreditation in the UK."

Hazel Goss - SBD Development Officer.

The Keyguard XL retains the unique characteristics that made it an industry favourite to begin with, such as...

- **Hi-vis keypad & markings for improved visibility**
- **Weatherproof rubber cover with installation template**
- **Improved internal hook**
- **No requirement for certified installers**
- **5 year warranty**
