

PAIRING YOUR ADDITIONAL CAMERA

1. Go to 'Match Code' on your monitor's main menu.

2. Plug your additional camera into a power supply.
3. Press 'Match Code' on the display screen.

4. Press and hold the small button on the camera Cable until you hear two beeps.
5. The camera will be matched to the next available channel (in the above example, channel 3).

Note: pressing the X next to a camera will unpair it

If your camera does not pair, unplug and try again.
Or, consult the main instruction manual/FAQs.
