

## Incognito Privacy Kit

Protect your digital privacy wherever you go with this 3-in-1 security kit designed for everyday device protection.

- Webcam Cover – Helps prevent webcam hacking by physically covering your laptop camera when not in use.
- USB Data Blocker – Safely charge your phone from public USB ports without the risk of malware, viruses, or unwanted data transfer. Compatible with iOS, Android, and Windows devices.
- Audio Jack Blocker – Blocks your computer's audio port to help prevent unwanted eavesdropping through connected microphones.

A simple, effective solution for improving privacy and security in the digital world
